## BOATING SAFETY

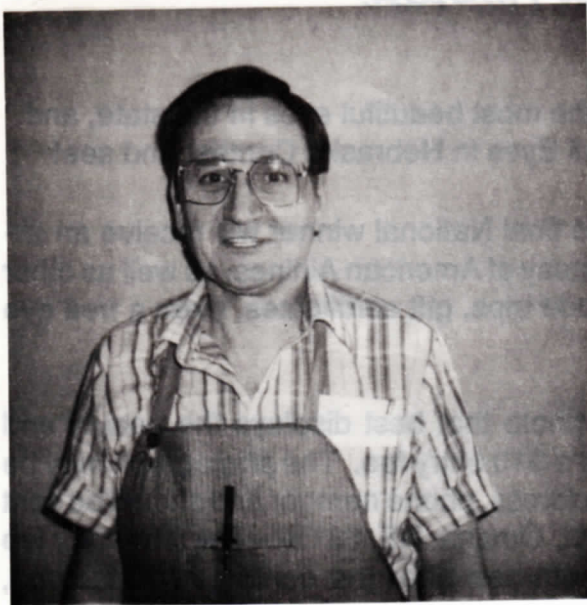

Recreational boating is second only to highway transportation in the number of fatalities that occur each year and alcohol is involved in most of these accidents. It is important to realize that the "designated driver" system used for motor vehicles doesn't work in boating. All individuals are at risk on a boat. The boat's motion, coupled with alcohol, increases the chances of losing balance and people falling overboard.

Everyone can enjoy a safe and fun summer boat ride if a few simple boating safety tips are followed. They are:

- \* Leave all alcohol behind.
- \* Wear a personal flotation device (life jacket).
- \* Don't overload a small boat.
- \* Weather and water conditions should be checked before leaving shore.

## Safety Awareness Contest

GEORGE COLEMAN, IBU 582-3, now owns a Black & Decker electric car polisher. He quickly answered "steel" to the question "The toe and insole are reinforced with what?". George told us he bought his son a polisher a couple of years ago and George was going to use it, but his son moved away! Since winning in the AT&T Safety Awareness Contest, George is so happy he even offered to polish our cars...or maybe he asked for help polishing his!

Congratulations to George, the latest winner in the Safety Awareness Contest.

## Former Hawthorne Employee Awarded 27 War Medals

The late Joseph C. Feret, 72, a retired yard supervisor at Western Electric's Hawthorne plant in Cicero, Illinois, was one of the most highly decorated soldiers in World War II.

Mr. Feret, who was a sergeant in the "Big Red One," the Army's 1st Infantry Division, served in North Africa, Sicily, on Omaha Beach on D-Day and throughout Europe, including the Battle of the Bulge.

He was wounded six times and received two Purple Hearts. He earned a total of 27 decorations. These included the Silver Star, personally awarded by Gen. Dwight D. Eisenhower, the French and Belgian Bronze Stars, a Presidential Unit Citation and two Bronze Stars with Oak Leaf Clusters.

On D-Day, he landed on the beach with a contingent of 54 soldiers, only 11 of whom survived the battle. He said in an interview four years ago, however, that the battle for Sicily was worse than D-Day to him because Allied troops were better armed and equipped on the beaches of Normandy. He said that at times in Sicily they fought tanks with rifles.

His Silver Star citation credited his aggressive leadership and personal bravery in assaulting a difficult position and in jeopardizing his own life while caring for the wounded.

Mr. Feret worked in the reel yard when he retired in 1980.

## 12 GOOD REASONS FOR HAVING U.S. SAVINGS BONDS

### 1. INTEREST RATES ARE HIGHLY COMPETITIVE

Savings Bonds held five years or longer will earn 85% of the average yield on five-year Treasury securities, with interest compounded semiannually.

### 2. CURRENT MINIMUM GUARANTEED RATE

Should market rates drop sharply, the average yield on Savings Bonds will pay no less than 6.0 percent, for Bonds held 5 years or longer.

### 3. BIG TAX SAVINGS

U.S. Savings Bonds are exempt from all State and Local Income or Personal Property Taxes.

### 4. DELAYED FEDERAL TAXES

No Federal Taxes to pay until Bonds are cashed or reach final maturity.

### 5. CASH ON DEMAND

Liquidity is always on the thinking investor's mind. Cash, when you need it, is one of the best benefits of U.S. Savings Bonds because of easy conversion at any time after 6 months from purchase.

### 6. STRENGTHENING AMERICA

Buying Bonds is patriotic. It helps you while you help your country. Bonds serve to underwrite Federal monetary needs and help fight inflation by supplying dollars that might otherwise be borrowed at much higher interest rates. One billion dollars in Savings Bonds sales saves the Treasury and therefore saves the taxpayers 70 million dollars.

### 7. COLLEGE COSTS MADE EASIER

Accumulating U.S. Savings Bonds for your child's college education can be Tax FREE when certain conditions are followed.

### 8. PEACE OF MIND RETIREMENT

You can cash bonds to supplement your retirement income, reporting the tax-deferred interest as income on your tax return.

Or, you can produce income from your savings by exchanging accumulated Series EE Savings Bonds for Series HH Bonds, which pay interest as it's earned by semiannual Treasury checks. You need not pay tax on the accumulated interest on the bonds you exchange until the HH Bonds are cashed or reach final maturity. This way you keep your principal intact, have a steady income for at least 10 years.

### 9. BONDS NOT SUBJECT TO PROBATE

Savings Bonds registered in either coownership or beneficiary form become the sole property of the survivor. The Bonds do not pass through the decedent's estate, whether or not it is administered. However, their value usually must be included in computing the gross estate for estate and inheritance TAX Purposes.

### 10. SAFE/INDESTRUCTIBLE

If lost, stolen or destroyed, U.S. Savings Bonds will be replaced without charge, by the United States Government.

### 11. PAINLESS ACCUMULATION

The Payroll Savings Plan hardly hurts when an allotment each paycheck is automatically set aside to accumulate Bonds.

### 12. NO COMMISSION OR MAINTENANCE CHARGES

## HIGH BLOOD CHOLESTEROL

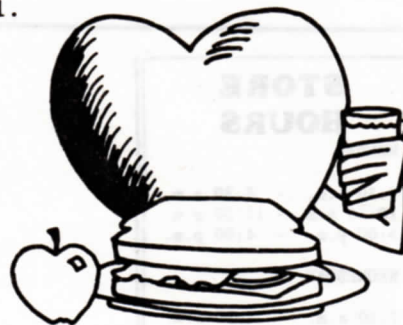

# KNOW YOUR BLOOD CHOLESTEROL BY HEART

What's your number? No, not your telephone number - your blood cholesterol number. About half of all American adults have blood cholesterol levels that are too high. Most don't even know their number. Next time you visit your doctor, have yours checked. If it's below 200 mg/dL, that's good. Get it checked again in 5 years. Your blood cholesterol is too high if:

- \* your number is 240 mg/dL or more; or
- \* your number is between 200 and 239 mg/dL AND you already have heart disease or two or more of the following apply to you: male sex, family history of heart attack before age 55, cigarette smoking, high blood pressure, diabetes, very overweight, and history of circulation problems (e.g., blockage of

blood vessels going to the head or to the legs).

If your cholesterol level is too high, your doctor will do another blood test to determine the amount of good (high density lipoprotein, HDL) cholesterol and bad (low density lipoprotein, LDL) cholesterol.

We see this as a superb Pioneer Project to promote the idea of reforestation and produce living monuments to the efforts of our members. We plan to start planting about 8:00 a.m. on the 21st. You will receive more detailed information after you sign up.
