Cans for Kids—

What a Great Two Years!

On May 18 the remaining monies from the "Cans for Kids" recycling program was given to the Joe Edmundson Youth Center located at 4400 Fontenelle Blvd. in Omaha.

This ends a wonderful chapter in the history of the Omaha Works. For two years employees in Dept. 597 volunteered their free time to collect beverage cans and take them to the recycling center. In that time they raised a phenomenal \$15,000.00 which was given to help the children in the Omaha area.

The final check in the amount of \$3,479.00 was presented to Joe and Jean Edmundson by department representatives, Earl Miles and Eileen Kodjecki Bullard. The money will be used to help eligible boys attend the wrestling championships in Indianapolis, Indiana and to purchase equipment which will bear the inscription: "From the Employees of AT&T". The boys are earning money cutting grass and doing other odd jobs to help defray the cost of transporta-

(continued on page 3)

The final monies from the "Cans for Kids" project was distributed on May 18 to the Edmundson Youth Center in Omaha. Presenting the check to Joe (seated) and Jean Edmundson (on the right) are Eileen Kodjecki Bullard (left) and Earl Miles of Dept. 597.

Sportsmen's Club—

Members Get First-Hand Look at Fur Trapping

The May meeting of the Weoma Sportsmen's Club was highlighted by an interesting presentation on trapping by Omahan Doug Sorenson.

Starting in the meeting room at the Dam Site Resources Center, Sorenson explained a few items about trapping and answered questions. He explained that his presentation would include a hike down to one of the creeks that feed the lake and that he would show club members how different traps are set for mink, muskrat and beaver.

Members also walked to another spot along the creek and Sorenson showed them various trap sets and again answered questions directed to him. Later, the members hiked back up to the meeting room and had refreshments.

At the upcoming June meeting, two videos will be shown. "Fishing for Pike", narrated by Dave Embry, host of the nationally televised "Adventures in the Wild", will show landing monster pikes weighing up to 27 pounds. Pete Ruboyanes' "How to Troll for Fish" takes you fishing on the Great Lakes. This video gives the secrets of taking fish by trolling.

The meeting will be held on June 6 at 7 p.m. at the Pappo Natural Resources Center, Dam Site 20, 8901 So. 154 St. Refreshments and door prizes will be available.

Upcoming events are: picnic-June 18; fishing contests. The 1989-1990 year end is June 30.

Lest We Forget—

June 6, 1944

Today, June 6, is the 46th anniversary of D-Day, the landing of Allied soldiers on the shores of Normandy, France under the command of General Dwight D. Eisenhower. On this historic date, the downfall of Nazism and Fascism had begun.

It would honor both those who died on the beaches and those who continued on to fight across Europe for freedom if we would remember them on this day.

Safety Awareness Contest

Five weeks in May provided us five winners in this month's Safety Awareness Contest. YAEKO "JUNE" SLATON, IBU 571-6, is May's final winner and the recipient of a \$50 gift certificate from Service Merchandise. We asked June "How many people are in the picture of this month's safety fact sheet?". The answer is "4". June's fellow employees are ready to help her shop.

The month of June's fact sheet "Respiratory Hazards" has been distributed. If you didn't receive your copy, contact your supervisor or call the safety organization on ext. 3585.

SAFETY TRIVIA

by
Shirley

Trivia about sunburn:

1. Depending on the severity, sunburn may be associated with what?
2. How long does it take for the redness to peak in intensity?
3. What is the best method of preventing sunburn?
4. Sunscreens are a very effective means of sunburn prevention. How long before sun exposure should a sunscreen be applied to the skin?
5. Prolonged, repetitive exposure to the sun can lead to three problems. What are they?

ANSWERS:

1. Headache, nausea and chills.
2. 48-72 hours following exposure and may last as long as 7 to 10 days.
3. Avoiding prolonged exposure to the sun.
4. At least 30 minutes before exposure.
5. Premature wrinkling, aging of the skin and skin cancer.

Cans for Kids—

What a Great Two Years!

(continued)

tion to Indianapolis, according to Edmundson.

His youth center has helped over 225 children a year and he hopes to reach even more in the future. All AT&T employees have an open invitation to visit the youth center, he said.

Quoting an employee in Dept. 597: "Omaha is truly blessed to have people like Joe and Jean as part of the community. They have dedicated their lives in helping the young."

The volunteers in Dept. 597 ended their project with the following words:

"Since the 'Cans for Kids' project is over, we want to thank every person who saved their cans and helped us raise \$15,000.00 to help so many children. It is also gratifying to see that people are now taking cans home to recycle for themselves and keeping one more thing out of the landfill. Keep up the good work."

(Editor's Note)

The unselfish volunteerism of everyone involved in the "Cans for Kids" project says much about the caliber of employees at the Omaha Works. Their dedication of time and energy will be rewarded in the achievement of a better community by replacing despair with hope into the lives of many Omaha youths.

You are truly appreciated for your kind efforts. Thank you.

It Was a Cold Night for the Winless Boys of Summer

In the evenings most lop-sided game, Elmo Fudd's drubbed the Boys of Summer, 16-4, in Tuesday night softball action. Early inning runs spelled doom for the winless Boys.

Balls & Strokes had little trouble with Bud's and got back on the winning path with a 15-5 win. They still share first place in the league standings as the South Omaha Eagles soared past the Local Yocals, 10-2. Balls & Strokes and the South Omaha Eagles have identical 5-1 records.

The final contest of the night pitted Sluggo's against Novotny's but a 5 run first inning was all that Novotny's needed for a 5-1 win. Sluggo's couldn't get their bats working and dropped to 4-2 for the year and fell into a tie for second place with Elmo Fudd's. Complete standings are listed on page 2.

AT&T Raps 28 Hits in Win Over Orent Graphics

AT&T's Raffles opened up their half of the first inning last week with six consecutive hits—two doubles followed by two triples, a home run and a single— and coasted to an 18-7 victory over Orent Graphics in the Industrial League softball contest.

Jim Johnsen, who opened the inning with a 2-bagger, batted 4 for 4 at the plate with another double in the second inning and two singles. Tom Rosencrans also had a perfect 4 for 4 night which included two triples and three RBI's.

AT&T added four runs in the third inning. Bob Jones' double led the rally followed by singles from Dave Stastny, Jesse Welker and Leo Reading. Jones added a home run to his credits, that coming in the first inning.

After picking up three runs in the fourth and fifth innings, AT&T closed the door by adding five more runs in the sixth. Frank Bogatz rapped a double down the left field line and Rich Murcek's double scored Bogatz from second base.

A total of 28 hits were recorded. Joe Ksiazek helped with a single and a double, Gary Welker had two doubles and one RBI and Doug Johnson added a single.

Jesse Welker leads the team in batting with 12 hits at seventeen times at bat for a .706 average. Jones' .682 batting average is second and he also leads the team with 15 hits and two home runs.

AT&T improved its record in the league to 3 wins against 3 losses.

T.L.C. TIPS

DARE TO BE SAFE!

The Wellness Councils of America (WELCOA) are sponsoring Dare To Be Safe, a new traffic safety education program tailored for the workplace. During the month of June, the Weoma Club News will feature articles on driving safety.

Motor vehicle accidents are a major health problem in the United States.

- * Every year motor vehicle crashes take the lives of 48,000 Americans and cost American business \$40 billion dollars.
- * Motor vehicle crashes are the leading cause of death among people 44 and younger and the number-one cause of on the job fatalities.
- * A study of Control Data employees indicated that the 41% of employees who do not buckle up generate more than 80% of the claim payments for vehicles crashes
- * Drunk driving accounts for more than half of all motor vehicle crashes. The annual cost exceeds \$25 billion dollars
- * 3,293 children under 14 are killed each year in motor vehicle accidents. A major cause of deaths is unbelted adults crashing into children.
- * In a recent study of survivors of motor vehicle accidents
 - unbelted persons were three times more likely to be hospitalized than belted persons.
 - the average hospital bill for un-

belted passengers was \$2,462 and for the belted passengers, \$753.

the average hospital stay for an unbelted passenger was 16.9 days and 6.6 days for the belted passenger.

Lack of safety belt use is among one of the most prevalent behavioral risk factors for premature death in this country. It places as many as 80% of all Americans at risk.

The simple use of safety belts reduces the probability of death or serious injury following a vehicle crash by at least 50 percent. In 1988, safety belts saved about 4,500 lives among front seat occupants four years old or over. If all front seat occupants had been wearing belts, about 15,900 lives would have been saved.

If you are not in the habit of buckling your seat belt, give it some thought and begin today.
