Ross Callihan to Head 1992 Men's Golf League

At a special meeting called by Kurt Vandergrind, Dept. 742, Ross Callihan was elected president of the Weoma Golf Leagues for 1992. Callihan has served a vice-president in 1991 with Vandergrind as president.

Vice-president/Treasurer title was given to Rich Runnels, Jr. and Tim Miller was elected secretary of the leagues. It was assumed that the current league secretaries will be retained in the coming year.

President Callihan will announce the next meeting to be called in 1992.

A Few Openings Left

LAS VEGAS ! March 5-8

JUST A REMINDER - If you are interested in a fun-filled long weekend in Las Vegas see the October 30 issue of the Weoma Club News for details. Your \$25.00 deposit must be in the Weoma Club office as soon as possible. Refer questions to Ron Thomas at World Travel, 733-0167.

A Note of Thanks

Thanks to all of my friends and co-workers at Omaha Works for making my retirement so wonderful. I wish the very best to all of you on your future at AT&T.

NOTICE

THE OMAHA WORKS HAS CONTRACTED WITH AN OUTSIDE FIRM TO SURVEY THE CONSTRUCTION MATERIALS OF ALL BUILDINGS ON THE PROPERTY. BEGINNING DECEMBER 21, 1991 YOU MAY SEE PEOPLE DRESSED IN WHITE SUITS AND FACE MASKS IN THE SHOP AND OFFICE AREAS.

THESE PEOPLE WILL BE TAKING SAMPLES OF CEILING AND FLOOR TILE, PIPE INSULATION, CONCRETE, AND WALL SECTIONS. THESE SAMPLES WILL THEN BE ANALYZED AND IF A SAMPLE CONTAINS ASBESTOS THE AREA WHERE THE SAMPLE WAS TAKEN WILL BE LABELED. THE SURVEY SHOULD BE COMPLETED MARCH 31, 1991.

THESE TESTS WILL BE CONDUCTED ON ALL SHIFTS AND TIMES FOR EACH AREA WILL BE SCHEDULED TO MEET THE NEEDS OF PRODUCTION.

IF YOU HAVE ANY QUESTIONS, PLEASE CALL PLANT ENGINEERING, X-3669.

Stuto Scores Personal Best

STUTO

The Works Service bowling league has some exceptional bowlers and Gene Stuto, Dept. 596, is one of them. Rolling 600 series has been more or less common for Gene, however last week he rolled games of 245, 235, and 224 for a 704 series, his first 700 series.

"I was kind of happy when I did it. I tried not to overpower the ball, just let it roll off my hand," he said.

The Lotto Bull II Safety Awareness Contest begins Jan. 6, 1992

It's easy to win!*

Just read the Safety Awareness Fact Sheet in the Weoma Club News. Then when the safety people ask, answer the question correctly and you're the winner of a \$100 gift certificate redeemable at any store in the Westroads Shopping Center.

Only one person will be asked that week's question. If that person doesn't know the correct response, an additional \$100 is added to the pot for the following week. The prize money accumulates \$100 for each week the question remains unanswered. The person who correctly answers the question claims the grand total and the prize money starts again the following week at \$100.

LOTTO

BULL II

**Safety Awareness
Contest**

For answering a question correctly, a winner qualifies to answer the bonus question worth \$50! The bonus question is based on a safety videotape played at your department's safety meeting. If the winner can't answer the bonus question, the \$50 prize increases to \$100 for the coming week and increases by \$50 each week until the prize is claimed.

***The Lotto Bull II contest is open to
non-supervisory employees only.**

Even Scrooge Would Have Enjoyed AT&T's Christmas Party

Mrs. Claus and Jay Carter seem to be enjoying each others company while Santa (below) has his hands full with the children...???

"How did Santa know what we wanted for Christmas?"

On Saturday, Dec. 7, 1,320 guests arrived at the Omaha Works to take part in the annual Christmas Party. There to greet them at the front door was Works Vice-president Jay Carter and Mrs. Claus.

The children were entertained by several AT&T Corny Clowns, Mr. and Miss Mouse and Kermit the Frog. All this was in addition to sitting on Santa's lap and having his elves hand out gift to them.

Refreshments were made available and the Pioneer Store was open for those wanting to purchase Christmas items. Entertainment of several varieties was enjoyed throughout the afternoon. As the guests were leaving they were handed balloons by Mrs. Jay Carter and two of her children along with other volunteers.

Sandy Fitzgerald, Weoma Club director who planned the event, thanks everyone involved including those artists who made the signs and retirees who wrapped the gifts. "It was through the efforts of all the volunteers that made the party a great success," said Fitzgerald.

Photos by
Roger Howard

"Alright, who took my napkin?"

...and visions of sugar plums danced in her head.

AT&T Workers Dig Deep for Toy Drive Success

The Omaha Works annual Weoma Club Toy Drive has been completed and the final tally of donations reached \$3,348.50, according to Darwin Fager, Weoma Club director. The in-plant cash donations totalled \$2,548.50 with the Cornhusker Chapter of the Telephone Pioneers adding \$500.00. Miscellaneous toys donated by the Pioneers had a value of \$250.00. An anonymous donor brought in a sack of stuffed animals valued at \$50.00.

The committee observed certain guidelines when purchasing the gifts. Each coloring book was to have crayons attached; each battery operated toy was to contain batteries; and no violent weapon-type toy was to be purchased. Each toy had a value of \$20.00 or less.

The committee was co-chaired by Kitty McCants and Grace Romero, both of Dept. 597. They and the rest of the committee expressed best holiday wishes to all who gave toys and cash.

LOTTO BULL CONTEST

Kathy Smith, Dept. 581-8, will be doing her Christmas shopping at the Westroads with the \$100 she won in the LOTTO BULL SAFETY AWARENESS CONTEST. She correctly answered the question: "Is hypothermia possible in warm weather?" Her answer was, "yes."

Kathy also knew the BONUS QUESTION which was based on the safety film shown at the departmental safety meeting. That correct answer won her an additional \$150 for a grand total of \$250. Way to go, Kathy!

NOTE: There will be no Weoma Club News edition the first week of January, so be sure to read the LOTTO BULL FACT SHEET for the month of January in this week's edition.

WIN WITH SAFETY Take safety on the road with you

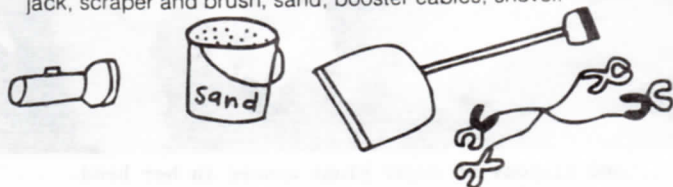

Don't rush.

Allow enough time for holiday traffic or bad weather. And take a few moments before you leave to be sure you're prepared for emergencies.

- Be sure wipers, lights, defrosters, and other safety equipment are working and that you use them in bad weather.
- Check that tires are properly inflated, have good tread, and are all-weather rated.

- Make sure your battery is charged and working well.
- Top off windshield washer fluid.
- Remove any snow and ice from windows, headlights, and taillights.
- Be sure you're carrying emergency equipment: flashlight, flares, jack, scraper and brush, sand, booster cables, shovel.

When you're on the road, be especially alert and cautious. Holidays often mean extra traffic, bad weather, and drivers who have been drinking.

Always expect the unexpected!

- Stay at least two seconds behind the vehicle in front—more at night or in bad weather.
- Watch out for sudden stops in the traffic ahead.
- Check your rear and side mirrors regularly.
- Be alert for icy patches.

EDITH O'HARA

- Keep your distance from a driver who's speeding, weaving, or driving poorly; pull over, if necessary.

ALWAYS wear your safety belt—and make sure passengers wear theirs! Babies and small children should travel in approved safety seats—not on someone's lap!

Retiree Event Draws Record Crowd

Nearly 1400 Omaha Works retirees attended the Retiree Christmas Party on Monday, Dec. 9. The luncheon provides an opportunity for former Works employees to visit with each other and hear what's new at the plant.

Attendees included AT&T employees who took retirement from the 1960s through 1991. A chartered bus brought 46 retirees from the Lincoln area.

Omaha Works Pioneer Administrator **BOB MILLER** was pleased the weather cooperated when temperatures reached into the upper fifties. "I'm not sure which was warmer, the weather or the people. It's a very warm group."

Pioneer President **LEO THIETJE** hosted the group and served as master of ceremonies. Entertainment was provided by the Renaissance Madrigal Syngers.

The Holiday Inn Central Ballroom, the largest banquet facility in the city, was near capacity as Works Manufacturing Operations Director **JIM ANDRY** addressed the group. He talked of current happenings at the plant and of national and international trends in the telecommunications industry affecting our business.

Jim said "Looking over a room of nearly 1500 people is quite a thing to see. There's such continued growth in attendance that we might have to look at moving the luncheon to Ak-Sar-Ben next year."

The luncheons were held at the plant for many years. When the crowd became too large for the auditorium the event was moved to outside facilities.

Retirees are of all ages, which raises the question "Who's been retired from the plant for the longest time?"

According to Bob Miller, the Omaha Works employee who has been retired the longest is Ella Olson of Papillion. She left the plant in 1964.

Following is the list of the number of living retirees and the years in which they retired: 1960s—18, 1970s—206, 1980—53, 1981—114, 1982—97, 1983—83, 1984—77, 1985—80, 1986—178, 1987—113, 1988—160, 1989—205, 1990—219, 1991—450.

Mfg. Operations Director **JIM ANDRY**, the event's feature speaker, talked of Network Cable Systems efforts to expand business into the international arena.

BILL TIMM, 85 (left) retired in 1971 and **KEN EKWALL**, 78, took retirement in 1976.

Retirees of all ages including (l. to r.)...**KARL VILLWOCK**, 82, retired in 1974, **BLANCHE TABER**, 91, retired in 1965, **VELMA BUSH**, 87, retired in 1969, **ARDYTHE ULFERS**, 76, retired in 1973, **NAOMI ROBERTS**, 89, retired in 1967 and **FRANK BUTALLA**, 85, retired in 1971.

Minutemen "Invade" Weoma Sportsmen's Meeting

by Bill Peters

The December meeting of the Weoma Sportsmen's Club was highlighted by a colorful and informative presentation about muzzle loading by Chuck Emig and Chuck Sohm. Emig is one of the proprietors of the "Old Fontenelle Gun Shop" in Bellevue, NE.

SOHM

Both Emig and Sohm are members of the 2nd Maryland Regiment of Foot and came to the meeting in their colorful and authentic clothes of the 1780's.

Emig was dressed as the Pennsylvania Rifle Minuteman. He stated that Minutemen were usually hunters and that they brought their own rifles and the bores were rifled.

Sohm was dressed as a Continental sergeant major. He stated that the 65 or 75 caliber smooth bore musket was usually used.

Emig and Sohm both stated that up to three shots per minute could be made from these rifles and they were fairly accurate. Emig said there was one officer hit and killed by a rifle at one mile and 28 yards and it took over one minute for the projectile to travel that distance.

Some of the phrases that came from the muzzle loading period are: "Going off half cocked" (when the hammer did not fire the powder charge); "Made it lock, stock and barrel" (when the rifle or pistol was made by one person).

Emig informed those who are intending to purchase a muzzle loader to take it out and site it in and become familiar with it before hunting season begins.

If you are interested in becoming members of the regiment or looking for an educational presentation by the group you can call 291-5253 and get more information.

The next meeting of the Weoma Sportsmen's Club will feature Greg Eckstrom and Ted Hubbard from the "Tackle Box" in Omaha who will talk on ice fishing, tackle, how to's and current conditions in the surrounding area. Serious ice fishermen should attend this meeting to learn the latest on the subject.

The meeting will take place on Jan. 8, 1992 (Note: 2nd Wed.) 7:00 p.m. at the Papio Natural Resources Center, Dam Site 20, 8901 So. 154th St. Sausage, cheese, crackers and refreshments will be served. Door prizes will be available.

EMIG

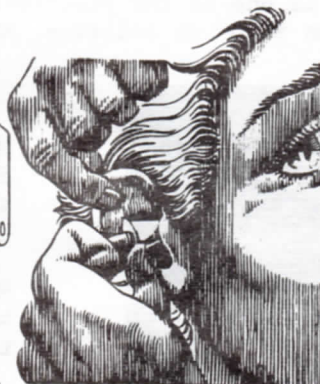

CHOOSING AND USING HEARING PROTECTION

Muffs, Plugs, And Canal Caps

Silence may be golden—but not when it's permanent. Hearing loss is a condition that occurs over time from repeated exposure to excessive noise. We can't always prevent noise, but we can prevent hearing loss by following established safety procedures and using the appropriate hearing protectors for the noise hazards we face each day. The following is a guide to the most common types of hearing protectors and the types of hazards they can guard against.

Muffs cover the entire ear and can reduce noise by as much as 15-30 decibels.

Ear plugs are positioned in the outer part of the ear and may reduce noise by as much as 30 decibels.

Canal caps are most commonly used when an individual is unable to use ear plugs.

Ear Muffs

Ear muffs come in many styles. Most are attached to spring-loaded headbands, while others are attached directly to safety headgear. Specialized muffs are also available for persons who work in high-voltage exposures, or who need to filter out hazardous noises while retaining acute hearing for normal sound ranges. Muffs cover the entire ear and can reduce noise by as much as 15-30 decibels. (Muffs are often used in conjunction with ear plugs when a worker is exposed to extremely high noise levels—105 decibels and above.)

Ear Plugs

Like muffs, ear plugs come in many varieties—formable, custom-molded, pre-molded, disposable, reusable—and may be made of many different types of materials such as acoustical fiber, silicone, rubber, or plastic. Ear plugs are positioned in the outer part of the ear and may reduce noise by as much as 30 decibels. (Excessive noise is commonly defined as 85-90 decibels or more over an 8-hour period.)

Canal Caps

As their name suggests, these hearing protectors cap off or close the ear canal at its opening. Like many muffs, canal caps are connected to a flexible headband that ensures a close fit. Canal caps are most commonly used when an individual is unable to use traditional ear plugs.

Using Hearing Protectors

Your supervisor can help determine the amount of noise you are exposed to on the job through various testing devices and will provide you with the appropriate type of hearing protection for the particular noise hazards you face. But remember, hearing protectors only work when you use them correctly and consistently. Depending on the type of hearing protectors you use, dispose of or replace them as necessary. For reusable protectors, follow the manufacturer's guidelines for cleaning and storage. When it comes to your hearing, an ounce of prevention is worth a pound of cure.

A SPECIAL NOTE...

All three types of hearing protection devices are available from the 44 Store. Employees exposed to 85 decibels or greater are required to wear hearing protection and be on the hearing conservation program. The hearing conservation program consists of an annual hearing exam and annual training. Contact JOHN HAZUKA at extension 3395 for further information or noise monitoring.
