Western Electric—Omaha Works

James H. Beck, Editor

Michael W. Rissien, Assist. Editor

the **WEsterner**

**Volume 16  
Number 5**

*The Westerner* is published every three weeks by the Public Relations Department for employees of the Omaha Works. For information write: Editor, *The Westerner*, P.O. Box 14000, West Omaha Station, Omaha, Nebraska, 68114; or telephone, 334-3603.

Extra copies of each issue will be kept on file until the subsequent issue has been printed. These copies are available from the editor on request.

*The Westerner* is printed on 100 per cent recycled paper as part of the dedication of the Omaha Works to improving the environment.

one year ending in 1971

# perfect attendance for 1324

During the year of 1971 the following 1324 Omaha Works employees completed one year of perfect attendance. Attendance awards were presented to employees who, at the end of any consecutive twelve months, had a perfect attendance record. Effective March 1, 1972 a new program makes a \$12 dinner certificate available to all salary and hourly graded employees. The awards are presented to recognize employees who maintain a record of perfect attendance for one year.

Miss WEOMA XV  
 NOMINATIONS  
 OPEN

Nomination ballots for Miss WEOMA XV will be distributed on May 30, with a return deadline of June 2, 1972, according to coronation officials.

Ten semi-finalists will be announced June 23, and the three finalists will be announced August 11, with the crowning ceremony at the Coronation Dance October 7, 1972.

You can't pinpoint all the problems in Omaha and the surrounding community, but you can be sure they exist.

There are thousands of young people who use drugs, others who will start; and they'll come from every section of the city. Each year hundreds will drop out of school. Juvenile delinquency and crime know no race nor social class. Scores of other problems plague the youth of the Omaha metropolitan area.

# mother and community builder

They need help growing into men and women, and Arline Boyd, a Wireman in Dept. 432, is there helping. She realizes that these young Americans need a guide through the maze that life builds for them to follow. She knows that a man does not become a man just by growing up, going to school, fighting wars, marrying and raising a family. It takes more; it takes the care and concern of a mother who is willing to help design the life experiences that mold, shape and develop a child.

Arline is one of our community builders. She helps boys grow into men and girls into women. She builds tomorrows' communities from the nucleus of her family.

A mother of three, she divides her time between raising her family and boosting organizations that will help shape their future. She actively supports the Cub Scouts, Brownies, 4-H, the Youth Fellowship of the Faith Presbyterian Church and the Papillion High School Athletic Boosters. She is the past president of the Papillion Band Parents, an organization that raised money to send the band to the Hemisfair in Texas.

Working fulltime so her children can attend college is another area of dedication to her family and commitment to youth.

"Children," she said, "appreciate mothers who work, so they will be able to attend college."

What is her reward for the hours of dedicated service: "Just the appreciation expressed by my children and the satisfaction of seeing them grow into men and women."

Arline, employed by Western Electric now for seven and one-half years, is dedicated to her family with the kind of dedication that is common among mothers, but too often goes unheralded. The Omaha Works salutes Arline and the hundreds of other Western Electric mothers who are *our* community builders.

# Arline Boyd...

# ...helps shape tomorrow

3 weeks ahead of schedule

## 520 PBX orders filled to FAA and Pentagon

by Mike Rissien

Nine Omaha Works departments banded together and produced seventeen 520 PBX frames in record time in April.

Answering requests from the Federal Aviation Administration, the Pentagon and the Grand Forks, North Dakota police department, the Omaha Works cut two and three weeks off normal production schedules in completing the three jobs.

Since the Omaha Works is the only supplier in the country of these emergency reporting systems.

Personnel in Departments 411, 412, 421, 422, 428, 431, 434, 263 and 113 joined forces to produce the six frames for the U. S. Naval Air Station in Corpus Christi, Tex., six frames for the Federal Aviation Administration in Jew Jersey, and five frames for the Grand Forks police.

John Bourke, Assistant Manager 410, said that as a result of this effort, the FAA units were shipped two and a half weeks ahead of normal schedule, the Navy's frames three and a half weeks early, and the frames for Grand Forks were three weeks ahead of schedule.

Almost 2,000 of the 520 PBX frames have been produced since 1959, when the first 38

frames were manufactured and shipped to Hawaii in support of a Presidential visit.

Representative of the employees who produced the 520 PBX frames are: (back row) Ron Yearsley and Paul Guhl; (front row) Pat Kratina, Virginia Hawkins, Larry Doeden and Robert Coffman.

### Westerner printed on paper made of paper

The issue of *The Westerner* you are now reading is printed on paper made out of paper.

A short time ago it may have been letters, catalogs, or perhaps other newspapers, but whatever it was, yesterday's history has been washed out and a new 100 per cent recycled stock remained to be reused.

Printing *The Westerner* on recycled paper is part of the Omaha Works' contribution to improving the environment. Normally 16 trees are cut and processed to make one ton of new paper. So with nearly 500 pounds of paper used in each issue of *The Westerner*, four trees are saved per issue.
